◆ 01 · BRAND CORE

Real gold. In your hands, from your phone.

ذهب حقيقي، بين يديك من جوالك.

Goldcom is an Omani platform for owning real, physical gold from your phone. Start from one gram, see live indicative prices, then hold, track, gift, sell or collect, in Arabic or English.

01
Real gold
ذهب حقيقي
Physical, certified bars and coins, not a number on a screen.

02
Accessible
في متناول الجميع
Start from one gram, in your language, on your phone.

03
Clear
وضوح تام
Live indicative prices. Fees shown before you pay.

04
Trusted & local
ثقة محلية
Omani platform. Sharia advisory by Eltizam. Secure accounts.

05
Meaningful
قيمة تدوم
Gold as a gift and a family tradition, made simple.

Personality

We sound like a knowledgeable Omani friend who works in gold: precise about numbers, calm about markets, warm about family occasions.

WE ARE	WE ARE NOT
Trustworthy	Hype-driven, "get rich"
Calm	Anxious, urgent, pushy
Clear	Jargon-heavy, vague
Warm	Cold, purely transactional
Local	Generic, Western-default
Modern	Old jewellery-shop clichés

Who we speak to

Four audiences. Pick one per piece of communication.

First-gram saver
"You can start small and own real gold."

Self-directed buyer
"Transparent live prices and clear exit options."

Family gifter
"A meaningful gift, sent in seconds."

Gift recipient
"This is real gold, and it's yours."

02 · LOGO

The bilingual lockup

الشعار ثنائي اللغة

An Arabic and Latin wordmark paired with an angular, gem-like "G" drawn entirely on a 45° grid. Always use the master files in `brand/logo/`. Never redraw or retype it.

1. **Arabic wordmark · جولدكم**
   Sits above the Latin. Arabic first, as the brand is.
2. **Latin wordmark · Goldcom**
   "Gold" bold, "com" light. The contrast is part of the mark.
3. **Roof facet**
   Amber #CD864B: protection and custody.
4. **G facet**
   Gold #DBA761: Goldcom, folded like a bar.
5. **The gem**
   Detached diamond: the customer's own gold, held safely. It also defines the unit X.

Never rebuild it with a font.
